SUMMARY

Finance and operations professional currently on the Gen AI & Automation team within Global Financial Operations at American Express, where I build AI-assisted workflows and decision-support tools that streamline financial analysis, reporting, and controls with hands-on fluency in AI tools – Claude, ChatGPT, Python, VS Code, and Cursor – to turn manual finance processes into scalable, automated solutions.

EDUCATIONAL QUALIFICATIONS

CFA Program Level I – CFA Institute • Practical Skill Module – Financial Modelling	March 2026
BSc Finance – Narsee Monjee Institute of Management Studies (NMIMS) • Key modules: Strategic Management, Corporate Finance, Financial Reporting, Derivatives & Risk Management, Financial Statements Analysis, Financial Modelling and Valuations, Quantitative Techniques.	Aug 2021-Aug 2024

WORK EXPERIENCE

American Express Financial Analyst • Work with the Gen AI & Automations team under Global Financial Operations (GFO) to leverage Generative AI in optimizing financial analysis, documentation, knowledge management, and decision-support workflows. • Partner with finance stakeholders to analyze business processes, improve operational efficiency, and strengthen financial controls across finance activities.	July 2026– Present
American Express Apprentice, Gen AI & Automations • Drove automation and AI-led transformation initiatives within Global Financial Operations, collaborating with 5+ cross-functional process owners to identify automation opportunities using Power Automate and AI-assisted tools. • Built a Python-assisted automation workflow using ChatGPT, Copilot, PyCharm, and Excel that reduced manual effort in operational processes and received appreciation from management for initiative and execution.	Apr 2026– June 2026
American Express Apprentice, Legal Entity Controllership • Supported month-end close, financial reporting, capitalization testing, and OPEX review schedules within Oracle EBS, along with 5+ regulatory filings including XBRL, SOFTEX, and MPR. • Contributed to quarterly and annual financial statement reporting processes, including related party transaction disclosures.	June 2025– Apr 2026
Kairne Capital IFSC Investment Intern • Performed financial due diligence and financial analysis for M&A transactions and startups; assessed balance sheets, growth potential, and investment viability. • Identified investment opportunities in distressed assets and 25+ NCLT cases, applying financial insights and valuation techniques. Worked on 20+ pitch decks for unlisted companies & startups, providing strategic financial insights to stakeholders.	Feb 2025– June 2025
Extern RevRoad VC Remote Extern • Conducted secondary research on US Edtech companies, reading various financial reports to identify trends and evaluate competitive landscapes, while uncovering 10+ actionable growth opportunities. • Researched to source a startup achieving an adherence score of 75%, streamlining with RevRoad’s strategic goals and investment criteria.	Aug 2024– Sep 2024
Tech Mahindra Finance Department Intern • Supported budgeting and cost analysis by leveraging MS Excel and advanced costing techniques, identifying key cost drivers, and implementing cost-saving measures that resulted in a 15% reduction in overhead costs.	June 2023– July 2023

PROJECTS

Portfolio Pulse – AI driven Portfolio Analysis Tool • Developed a portfolio analysis tool (Robo-Advisor model) that evaluates user holdings to assess portfolio risk, asset allocation, correlation exposure, diversification metrics and provides 3 actionable insights.
Skippi Ice Pops – Unit Economics and Margins • Built a unit economics and financial model for Skippi Ice Pops (Shark Tank India case), analyzing COGS, CAC, 2 channel margins (retail vs. wholesale), and payback dynamics for a ₹20 FMCG product to assess scalability and profitability.
Avenue Supermarts Ltd – Valuation, Company Profile • Built a detailed valuation model for Avenue Supermarts Ltd., projecting key financials through FY29 and estimating intrinsic value via DCF and relative valuation; evaluated 10+ key metrics including revenue growth, EBITDA margins, and return ratios across 5 fiscal years to assess investment potential and strategic positioning.
